

SProggaven

- Play with your child in the sandbox
- Use the bucket and the shovels to build towers, make sand cakes, sand castles or use the shovel to gather water from puddles
- Also play with bucket and shovel, when your child is taking a bath
- Talk to the child about what you are doing together.
- "I'm pouring water." "I'm building a tower!"
- Follow the child's ideas and talk about, what the child is interested in.
- Talk about what you have played. Later on when you see a sandbox, talk about what you did, when you played in the sandbox.
- "Do you remember, when we built a tower in the sandbox?" "What did you think was funny?"
